

CONCEPT PROTOTYPING PROGRAM

# CPP

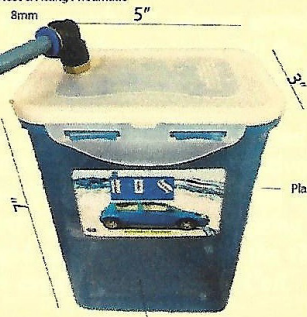

## BRIEFER

Department of Science and Technology  
**TECHNOLOGY APPLICATION AND  
PROMOTION INSTITUTE**

## HPS Description

Host & Fitting Pneumatic  
8mm

AMP Metter

Fuse 10 amp.

Plastic Case Heat Resistant  
Food Grade

Relay 30 amp.

The **Concept Prototyping Program (CPP)** supports the development of an initial working prototype of a potential invention or innovation.

### COVERAGE

1. Technical assistance from experts
2. Financial assistance not exceeding one million pesos for the purchase of equipment for an initial working prototype, labor expenses, laboratory and facility use, and testing fees shall be released to state universities and colleges (SUCs)
3. Financial assistance not exceeding Php200,000.00 for the purchase of equipment for an initial working prototype shall be released to inventors

### CRITERIA

- Technical soundness of the concept to be identified by external experts
- Availability of technical description
- Advanced features of the concept over existing invention
- Compliance to environmental laws and standards, if applicable
- Social benefits, if applicable
